When beer is not sufficiently aged it disorders the stomach and causes biliousness, counteracting all the beneficial effects this excellent tonic should have. Your safety lies in adhering to a brand which you know to be reliable, and we invite you to inspect and substantiate our claims in regard to

## AMERICAN QUEEN

We anticipate the demand and never sell any green beer. Throughout the year we carry the following year's supply, aging it for months in advance, so that it is always thoroughly ripe, mellow and healthful at the time of sale.

As another safeguard against biliousness, the water used is from our own artesian wells, and is strongly impregnated with chloride of sodium. This makes the addition of salt unnecessary in AMERICAN QUEEN BEER. You can safely keep this brand in your home, and should call for it wherever you drink.

After said register shall have completed said list, and the same has been approved by the Council, it shall be published one time in a daily newspaper published in the City of Pensacola at least five days before the day of election. No person shall be allowed to vote at said election whose name does not appear upon the list prepared, approved and published as aforesaid.

Sec. 12. That the City Council shall at least five days before the day of election appoint three inspectors and one clerk of election to hold the election herein provided for in each election precinct of the city. If any inspector or clerk so appointed shall fail to attend the proper polling place at the time fixed for opening the polls, the inspectors present shall fill the vacancies, and, if all the inspectors are absent, then the majority of the persons present qualified to vote in said precinct at said election, shall fill the vacancies.

## Tar and Feathers in 1180.

In England the penalty of tar and feathers was introduced in 1180, when Richard I., before setting out for the Holy Land, ordained, in order to preserve the discipline of his fleet, that whoever should be convicted of theft should first have his head shaved; that boiling pitch should then be poured upon it, and a cushion of feathers (de a plume d'oieiller) shaken over it. He was afterward to be put on shore at the first place the ship touched at, though, after a baptism of boiling pitch, the poor wretch would have little life left in him. In modern times the practice has found favor with the populace as a means of readily executing justice on an offender whom the law perhaps shows no anxiety to reach.—London Mail.

## The Rajah's Guest.

It is the custom in Sarawak that the rajah's house shall be open to his subjects at any time. That same Kayan chief from Baram who visited me, Dian by name, presented himself one night at Astana when the rajah had a dinner party. His appearance, clad simply in a chawat (waistcoat), with five followers in equally full dress, among a dozen people conventionally attired was a piquant reminder that I was "east of Suez." Dian pulled a pipe—I was going to say from his pocket—lit up and bore his part gallantly in the social amenities of the evening.—London Express.

## Cutting a Hailstorm.

During a severe hailstorm in the Himalayas our native gardener brought out a hatchet and placed it edge upward in the garden to "cut the storm," as he said. Catlin, in his "North American Indians," describes a ceremony of the Mandan Indians in which hatchets and edged tools are sacrificed to the "spirits of the waters" to avert a recurrence of the great deluge, of which the tribe has the tradition.—Notes and Series.
